“A” Preliminaries

The following new miscellaneous items have been reviewed by staff members of the Commission and we recommend accepting them for filing.

1. Corydon Municipal Water Utility

The utility is proposing to increase its reconnect charge for disconnection of service due to non-payment of bills. In addition, the utility is adding an insufficient funds charge to recover administrative costs. The reason for these changes is due to increased administrative costs and labor. Cost support has been provided.

The current and proposed charges can be found below:

<i>Tariff Charge</i>	<i>Current</i>	<i>Proposed</i>
Reconnection Charge	\$25.00	\$35.00
Returned Check Charge	\$0.00	\$25.00

2. Utility Center, Inc. d/b/a Aqua Indiana, Inc.

Utility Center proposes to increase miscellaneous or nonrecurring fees and charges. The new rates are a result of increases in hourly wages, health insurance costs, other employee benefits, transportation costs, and material costs. Utility Center also proposes to implement a new “Establishment of New Service Fee,” “Inspection Fee,” and “Dropped Off Tap Charge.”

The Establishment of New Service Fee recovers the administrative costs to initiate service. The Inspection Fee recovers the costs for utility personnel to inspect water line installation by an outside contractor. The Dropped Off Tap Charge is similar to the Tap Charge except another entity, such as the developer, completes a portion of the work. The new charges are shown below. Cost support has been provided.
